# MISSION, VISION & GOALS

The European Committee for Treatment and Research in Multiple Sclerosis is a non-profit, independent, representative European-wide organisation that serves as Europe's and the world's largest professional organisation dedicated to the understanding and treatment of multiple sclerosis.

---

## OUR MISSION

Facilitating communication, creating synergies, and promoting and enhancing research and learning among professionals for the ultimate benefit of people affected by MS.

## OUR VISION

ECTRIMS works with researchers and clinicians of its member countries and with other organisations that share similar missions and objectives on a worldwide scale, creating networking and collaboration opportunities.

The ultimate goal of ECTRIMS is to improve basic and clinical research and clinical outcomes in MS.

## OUR GOALS

---

We support and promote basic and clinical research in MS in Europe and liaise with other related organisations on a worldwide scale.

---

We organise annual congresses.

---

We are actively involved in coordinating initiatives in research and clinical care both in Europe and worldwide.

---

We initiate, support or endorse European activities of outstanding relevance to MS.

---

We support education and teaching opportunities for professionals that enhance their ability to deliver quality clinical care.

---

We organise workshops and related teaching activities in the field of MS.

---

We act as a representative of the MS research community in its member countries.

---

We encourage young researchers in the field of MS by promoting learning, training and exchange programmes.

## ECTRIMS 2022: EXPERIENCE THE EVOLUTION

ECTRIMS is evolving. Over the last two years, we've listened and learnt how & where we can evolve as an organisation to best meet the needs of our community, including here at our annual congress - the world's largest congress devoted to basic and clinical research and care in multiple sclerosis.

ECTRIMS 2022  
PROMO](#)

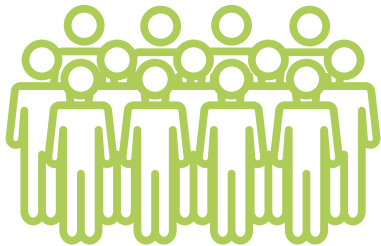

ECTRIMS Congress is evolving. To create greater impact, as the leading European organisation in MS research, we are adopting a hybrid approach to the annual congress, increasing both the reach and the value of time spent participating.

This means participants can now enjoy a tailored experience designed to enable faster access to the right information and quicker connections to the right people.

# ECTRIMS 365: CONTINUOUS CURATED LEARNING

At the heart of our new ECTRIMS 365 programme is the belief that as a community dedicated to finding better treatment and care options for people living with MS, we function at our very best when we can collectively share, nurture and support learning opportunities.

---

"ECTRIMS has evolved to better serve the community, and we want the community to evolve with us. ECTRIMS 365 will allow us to bring community and learning together all year round. "

ECTRIMS 2022-23 President  
Mar Tintore

## WHAT IS ECTRIMS 365?

Designed to provide continuous curated-learning, ECTRIMS 365 will enable and equip specialists and generalists across research and clinical practice with the most relevant and up-to-date knowledge & skills, strengthening the connections and delivering new educational opportunities for all professions across our community.

From blog posts and webinars featuring the latest updates in MS research, to the soon-to-be-launched ECTRIMS podcast, ECTRIMS 365 will provide year-round learning and educational opportunities to the greater MS research community.

The goal is simple: by connecting with others, by learning from others, and by sharing our own experiences in research, we can collectively increase the potential to enhance the overall advancement of treatment & care options for people living with MS.

# NEW! THE ECTRIMS PODCAST

Sharing the latest updates in MS research with those most affected by it.

## THE NEW SCIENTIFIC SOUNDING BOARD

The world is better when its people are connected. The ECTRIMS Podcast - the latest installment in our ECTRIMS 365 programme - will bridge the space between the world of MS research and those most affected by it.

The ECTRIMS Podcast aims to:

- be a sounding board for MS experts & advocates to discuss innovative work in MS research, treatment and care with the greater MS research community.
- offer a collaborative platform for MS and healthcare experts to promote & nurture the advancement of research.

The ECTRIMS Podcast

## UPCOMING CONGRESS EPISODES

### **ECTRIMS 2022 DAILY HIGHLIGHTS**

27-29 Oct 2022  
Three back-to-back episodes of ground-breaking research presented at ECTRIMS 2022

### **ECTRIMS 2022 FOR PATIENTS**

Nov-Dec 2022  
Highlights of the ECTRIMS 2022 Patients meeting to be held on 29 October in Amsterdam, NL.

### **ECTRIMS 2022 NURSES SESSION**

Nov-Dec 2022  
Highlights of the two Nurses Sessions to be held at ECTRIMS 2022.

# ECTRIMS 365

In addition to the new podcast, ECTRIMS 365 will encompass a year-round schedule of learning opportunities for our MS research community.

## Clinical Trials and Guidelines

ECTRIMS communicates advances in MS treatment through its involvement in *The International Advisory Committee on Clinical Trials in Multiple Sclerosis* and its contribution in the publication of clinical guidelines.

[LEARN MORE](#)

## ECTRIMS Fellowships

A wide range of fellowships are awarded annually to motivated young researchers, clinicians, nurses and other MS-related professionals to help advance their knowledge, expertise and technical capabilities.

[LEARN MORE](#)

## ECTRIMS Schools and Workshops

Annual summer & winter schools, as well regional courses and focused workshops are devoted to helping young researchers deepen their expertise in the field of multiple sclerosis.

[LEARN MORE](#)

## ECTRIMS Hub: Insights and News

Our new ECTRIMS Hub provides the latest insights, analysis and updates on MS research, as well as the latest ECTRIMS activities contributing to the advancement of MS treatment, research and care.

[LEARN MORE](#)

## ECTRIMS NeuroWebinars

These webinars are designed to enable MS experts to elevate topics of interest, navigate discussions around clinical research & practice, and drive the exposure and development of ideas and innovation.

[LEARN MORE](#)

## ECTRIMS Newsletter & Bulletin

Our quarterly newsletter contains information about our congresses, fellowships, educational programmes and more, while ECTRIMS Bulletins offer a curated selection of the latest MS research and analysis.
